—The National Union assembly in regular semi-monthly session this evening—lecture room in the Judd block, North Main street.

—Milwaukee street is being covered with broken stone. Almost anything would be better than the condition of things during the summer.

—Mr. Clinton B. Clark will open his second series of lessons on next Monday evening. All those desiring to attend should be there as this will be their last chance.

—Notwithstanding the fact that the trench diggers on the water works are at work on ground once used for the cemetery, no coffins have as yet been examined.

—People's Lodge No. 409, Independent Order of Good Templars, assemble in regular weekly session this evening—lecture room in the Court Street M. E. church block.

—Louis Egan and Howard Wall, with their comedy company, entertained a fair sized audience at Loppin's hall last evening, with the sensational melodrama, "The Archer's Crime."

—A special meeting of Rock River Encampment No. 3, I. O. O. F., will be held this evening at 7:30 o'clock, for work in the Golden Rule. A full attendance is requested.

—Among the Jansville young people that attended the party here Wednesday night, says the Clinton Herald, "were Ed. Field, Will P. Sayles and Farmer Christman."

—The Women's Suffrage association will hold a business meeting at Mrs. J. S. Conrad's on South Main street at half past two o'clock to-morrow. A full attendance is desired.

—Miss Hattie Benedict, the pianist, will favor the audience at the literary entertainment at the Court Street Sunday school rooms, with some choice recitations this evening.

—A night school is to be organized at the Wayside Inn to-morrow evening, for the benefit of boys who cannot attend the day schools. The meeting is set for 7 o'clock. All are invited.

—Mrs. Livermore took occasion last night to give the Jansville school board several very energetic digs. Her complaint was founded on the board's action in regard to the matter of music in the schools.

—The water company is anxious for the council to establish water rates in accordance with the ordinance granting the franchise, that contracts can be made with people who desire water service put into their buildings.

—With half a dozen new buildings soon to be put in the river, what will become of the law prohibiting such buildings that Mayor Winsor engineered through at Madison last winter? Won't it feel rather slighted?

—W. H. Sargent Post No. 20, G. A. R. assemble in regular semi-monthly session this evening at Post hall. A full attendance of members is desired as business of interest to every member will come before the meeting.

—Last night's Quadrille club dance was well attended. The ladies' memory "echoed" to the gentle tones of Leader Smith's voice until well past midnight and none could be found in the hall that failed to enjoy themselves thoroughly.

—Mr. and Mrs. George Barriar and their daughter, Miss Naomi Barriar, pleasantly entertained a large company of ladies and gentlemen last evening at a progressive supper party. Choice refreshments were served, and finally appropriate prizes were awarded the players.

—There was a large congregation present at the Baptist church last evening to hear the Rev. Dr. DeWitt. The doctor is a pleasant and forcible speaker, and his remarks were listened to with great interest by all present. He will speak again this evening and the public is cordially invited to be present.

—At the meeting of the common council last evening only Aldermen Carpenter, Fethers, Rooney, Smith and Troughgood answered to the roll call, and Mayor Winsor, who held the gavel, declared the body adjourned for the week.

The meeting will be held on Monday evening—provided, always, that a quorum puts in an appearance.

—Frank Pearson, the popular gunsmith on North Main street, is all broke up to-day. He lost his house-keeper last night—marriage noted elsewhere—and it is almost impossible for his friends to quiet him and prevent his committing matrimony at night with the first eligible lady passing his establishment. Frank admits it is all right, but that—

—A baker's dozen of prohibitionists sat in the circuit court room this afternoon and compared notes on the situation. J. O. Plumb, of Milton, presided and E. G. Pound acted as secretary. A meeting was to have been held in the morning as well as in the afternoon but nobody put in an appearance and everything went over "by default."

—J. W. Palmer, of Racine, and N. Griswold, the well known hardware dealer of this city, are now well established at the store occupied until lately by Munger & Coburn. Their stock is very complete and the reputation of the stand which is one of the oldest in the city, will lose nothing in their hands. The advertisement published in another column will be found interesting reading.

—"I can say without fear of being contradicted" said a west side fishmonger, "that these are all made to build from one and all of the Milwaukee street bridge to the other. The water power owners

have decided to make no objection. They will wait until the buildings are situated and have measurements taken to find how much higher the river is on one side of the bridge than on the other. Then the city will be sued for whatever the obstruction may be. I understand that piles for three of the buildings will be put in this fall."

"I'm not quite sure," said President Sutherland, of the school board, "but that taking singing out of the grammar rooms was a mistake. The board took action in the matter because of the numerous complaints that were about, but the complaints are rather more numerous now than they were before. I think it would be a good thing to change back again, although I want to do so with some restrictions." President Sutherland's views are endorsed by several others of the commissioners, and a reconsideration of the matter at the next meeting of the board is probable.

The pipe layers on the water works did the best job of pipe laying to-day since they commenced the work, and by the time the whistle sounds to-night not less than twenty-one hundred feet of pipe will be the result of the day's work. This will complete the pipe line on South Main street. The trench diggers are at work on South Third street, and by quitting time this evening will have the trench completed on that street, being from Main to Jackson street. The scrapers are at work on Jackson street the pipe line on this street extending from South Third street to Milwaukee avenue. This line being six inches pipe the pipe layers will drop it right lively. Mr. Gray is doing some very lively work just now in burying pipe, and is very confident he will have the pipe in the ground before cold weather puts a stop to further digging. With the 2,100 feet laid to-day, which is said to be the best on record, the first eight miles of pipe will be in the ground, leaving five miles more to be laid.

MATRIMONIAL.

[NEWSPAPER-DATES.]

Last evening at the residence of Rev. Joseph White, South Second street, third ward, Mr. Edward Weaver, of Racine, and Mrs. Susan Bates, of this city, were united in the holy bonds of matrimony, Mr. and Mrs. John Lowry, of La Prairie, acting in the capacity of best lady and gentleman at the ceremony. Mr. Weaver is now in the employ of the water company, having charge of the laying of the service pipes and the tapping of the water mains, and has only been a resident of the city two or three weeks. The bride has been the faithful housekeeper of Mr. F. F. Pearson for the past two and a half years, and is a lady well qualified to do her part in making a happy home for her husband and self. The best wishes of many friends will follow them.

C., to attend the meeting of the National Carriage Makers Association, and to take advantage of the opportunity offered by a thorough inspection of all the latest patterns in carriages, buggies, etc., to be exhibited at this meeting. Look out for something nice in the line of carriages on his return.

—Mr. I. C. Brownell returned home last evening from a two week's visit in New York state. While in the great apple growing region along the shore of Lake Ontario, Mr. Brownell combined business with pleasure, and while he does not intimate that he bought all the apples in that famous region, he says he bought several hundred barrels of the very finest winter varieties, which are now being packed and will be here in a few days.

BELOIT COLLEGE NOTES.

[Special Correspondence.]

BELOIT, Oct. 14th.—Charles C. Russell, of Jansville, has been elected manager of the college ball nine.

To-night the Athletics will debate whether "it is better to have loved and lost than never to have loved at all."

Something must be done before long toward replacing the old chapel with a new one. Here is a chance for somebody to perpetuate his memory and build for himself a monument that will stand for many generations.

One of the "preps" was given "Kindness" as a subject for his last essay. After spending two days in the library he came back to the instructor in elation and said it was no use—he could find nothing on the subject and would like to write on "The Colorado Indian and Idaho Squaw."
